Manuele Fior : The Interview before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Interview:

0 of 0 people found the following review helpful. Uncanny and compelling. By Dave Carter So it's kind of a late-life-crisis story coupled with deep uncanny (in this case aliens). Simple story, simply told, but quite lovely and compelling.

In this graphic novel, a psychiatrist's marriage falls apart, alien spacecraft hover in the sky, and his patient claims she can telepathically communicate with them. This graphic novel is set in Italy in 2048. Raniero is a fifty-something psychologist whose marriage is failing. In the sky, strange bright triangles appear, bearing mysterious messages from an extraterrestrial civilization. Dora, his young patient, is part of the "New" Convention, a movement of young people

preaching free love and alternative models to coupling and family. She declares that her telepathic abilities can parse the signal a warning of some kind. Initially skeptical, Ranieros curiosity and attraction grows. The Interview is a science fiction novel that eschews the stars in favor of the delicate, fragile, interior world of human emotion. Duotone

Through his narrative restraint and graphic acuity, Fior makes the experiences of a single man seem as important as the fate of mankind. - Booklist
