From Nintendo : The Legend of Zelda: Art Artifacts before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Legend of Zelda: Art Artifacts:

97 of 101 people found the following review helpful. Collection of Promotional and Concept Art By Vincent First of all, if you're a die hard Zelda fan, nothing in this book is new as this book is essentially a collection of promotional and concept art for the series. If you've been following Zelda from the beginning: seen all the game manual, read through all the Nintendo Power, Game Informer Magazine or have exposed yourself to all the advertisement through the years then nothing will pop-up and surprise you. This book has maybe 25-33% more art than the Hyrule Historia. I say art, because aside from the small interview section in back there's barely any text describing the art aside from the character's name or what game it came from. There is an interview in back of the book, but it mainly discusses the art of Zelda rather than the lore. You will not get insight or commentary in terms of hidden story lines or about the Zelda

timeline in this book. You do get art from the entire series from the original Legend of Zelda to Zelda Twilight Princess HD or Zelda Tri Force Heroes. There are 3,4 pages dedicated to Zelda Breath of the Wild, but again just promotional art you have seen before. Like the Hyrule Historia, the ink and paper quality is really good. Great coffee table book for when you have guests over or want to browse through it if a loading screen ever pops up. Overall great compilation of promotional Zelda art through the ages in one location. 2 of 2 people found the following review helpful. For Zelda fanatics. By Reach I was lucky enough to score this art book. My rating is a bit biased because I am a huge Zelda fan. Content is identical to the non limited edition version. While the content is cool, but it's not mind blowing. By far the coolest feature is the Master sword slip sheath. Nice touch, but hard to justify the premium over the regular version. Must have for Zelda die hards. Not so much for anyone else. 2 of 2 people found the following review helpful. Beautiful artwork. By M. Markward This book of Art was very beautiful. I liked all the different games that had Art represented in this book. The amount of beautiful colored pages was worth the money spent for this book. I was a little disappointed in the way the book was set up and felt it could have been organized better.

The Legend of Zelda: Art and Artifacts contains over four hundred pages of fully realized illustrations from the entire thirty-year history of The Legend of Zelda including artwork from the upcoming The Legend of Zelda: Breath of the Wild! Every masterwork is printed on high-quality paper in an oversized format so you can immerse yourself in the fine details of each piece. This book includes rare promotional pieces, game box art, instruction booklet illustrations, official character illustrations, sprite art, interviews with the artists, and much, much more! The Legend of Zelda: Art and Artifacts collects many of your favorite masterpieces from the storied franchise, as well as rare and never before seen content, presented in one handsome hardcover. Select artwork from the entirety of the franchise! A nostalgic look at the past! An exciting look at the future! Interviews with some of the artists behind The Legend of Zelda series!

About the Author Nintendo is a Japanese video game company founded in 1985. The Nintendo Entertainment System (NES) is given credit for revolutionizing the home gaming experience. A few years later, the Gameboy and the Super Nintendo cemented Nintendo as one of the premier gaming companies in the world. With iconic characters such as Mario, Link, Luigi, Donkey Kong, and Kirby, Nintendo has solidified itself as a true force in the video game community.
