**Pierre Christin : The Living Weapons (Valerian Laureline)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Living Weapons (Valerian Laureline):

Valerian and Laureline, no longer members of any organization, are down to doing space deliveries. With Galaxy gone and money getting scarce, their aging spaceship is becoming a hazard, which is pushing Valerian into accepting questionable cargo. After a somewhat rough landing, our two ex-agents, on their way to deliver their goods, meet some individuals with very surprising gifts who claim to be itinerant artists. But is that really all they are?

About the Author and Pierre Christin created Valerian in 1967 after working in the USA together, one as a cowboy, the other a teacher. While Valerian is Mzières' only comic series, he has worked as an illustrator in many other areas, including designs and sets for *The Fifth Element*, and he was awarded the Grand Prix du festival d'Angoulême in 1984. Christin also works in collaboration with other artists such as Tardi and Bilal and writes novels and film scripts.
