Jonathan Hickman : The Manhattan Projects Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Manhattan Projects Volume 1:

4 of 4 people found the following review helpful. An excellent book, collecting the first ten issues of the seriesBy JscifireaderThis book is excellent. It has humor, science, alternative history, parallel universes and aliens. It's filled with unexpected twists, unusual characters and strange technology. If you want to read a book where characters worry about the dangers of sentient origami, cyborgs, aliens, cannibals and radioactive men then this book is for you. The characters are based on actual historical figures, but they're portrayed differently from what you'll read in any history

book. The book is an oversized hardcover, although it is without a dust jacket. The artwork is excellent and really goes well with the story. 1 of 1 people found the following review helpful. If your looking for crazy innovative stories look no further ...By Jason Douglas Smith If your looking for crazy innovative stories look no further than the Manhattan Projects. Whether it's in real life or in this off the wall Jonathan Hickman rendition. It's a wacky stunning take on it. Must by for sci-if fans. Got the first hard cover for a friend who devoured it and the second volume. 0 of 0 people found the following review helpful. This was cool but missing something By Debbie This was cool but missing something. Emotional depth maybe. Idk. I love Morrison who seems to also present bugged out ideas but there is always some soul in it somewhere. This was entertaining but lacked heart imo. Maybe that's not this story's purpose but still that's the feeling (or lack thereof) I'm left with

What if the research and development department created to produce the first atomic bomb was a front for a series of other, more unusual, programs? What if the union of a generation's brightest minds was not a signal for optimism, but foreboding? What if everything... went wrong? Welcome to The Manhattan Projects! Brought to you by award-winning writer Jonathan Hickman and possibly the best new talent in the industry, Nick Pitarra, The Manhattan Projects is a look at history through a darker, much stranger, lens. Collects The Manhattan Projects #1-10.
