**Alejandro Jodorowsky : The Metabarons** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Metabarons:

28 of 29 people found the following review helpful. The crown jewelBy C FoxEven Jodorowsky's other comics masterpieces couldn't prepare me for the deranged cosmic beauty of this book. For anyone new to his work, this might be the perfect place to start, and you MUST start. The vast sci fi fantasy universe of intersecting stories Jodorowsky has created that includes the Incal, the Metabarons, and the Technopriests, is among the very greatest works of imagination ever produced. I believe it stands among titans like the Sandman, the original Star Wars movies, Dune, Lord of the Rings, etc. Metabarons could be the capstone of the Jodoverse, as the unbridled imagination of this book goes even beyond the Incal and the Technopriests. Sometimes there is a single panel, a single sentence, that you realize could have been developed into its own entire saga, and in this day and age it would have been, by someone

with far less vision. In *The Metabarons*, mind blowing ideas are tossed out with a nonchalant regularity that is almost maddening. It is a wonder to behold. It is still more a wonder that this man's work in comics is so little known in the US. If you are here, reading this, buy this book while it is in print and relatively cheap, read it, and lend it to everyone you know who might appreciate the absurd levels of imagination on display here. Oh and the art by Juan Gimenez is exquisite as well. 2 of 2 people found the following review helpful. A Jodo Epic! By D. Moler Jodorowsky is pure magic and Gimenez's art is unreal. *The Metabarons* is like an Homeric epic of Conan and Dune mixed together. Word to the wise though, do not read the intro to the last story supplement before reading *The Incal* by Jodorowsky and Moebius (spoilers). Other than that, loved, loved, loved this book! The Jodoverse is one of the best sci-fi universes out there, as long you have a penchant for the barbarically absurd psychedelic. :) 0 of 0 people found the following review helpful. *Space Mythology* By nfp Jodo and Gimenez deliver an at times laugh out loud, over the top, Greek myth Shakespearean epic of hyper-machismo, earth shattering emotional displays, implausible realities, abject cruelty, and gender dismorpho-bending even that would shock even a 25 year old David Bowie. I don't know who's more mad: Jodo for writing this scatological opera or Gimenez for hand painting every panel of its 536 pages.

A must-read cult spin-off of "*The Incal*," by Moebius and Jodorowsky, centering around the fascinating lineage of the ultimate warrior. This collection introduces the *Metabarons* bloodline and reveals the origins of their deep-seated principles. Find out the source of the family's vast wealth, learn why every *Metabaron* has cybernetic implants, and why the only way to become the next *Metabaron* is for him to defeat his own father in a mortal combat. Follow each successive generation as it struggles to overcome the forces amassed against it in a galaxy corrupted by greed, power, and terror. A true classic in the pantheon of graphic storytelling and Science Fiction as a whole.

"What keeps me going back to *The Metabarons* is the immense volume and speed of its innovation. There is literally a new and mad idea on every page." - Warren Ellis, writer of *Transmetropolitan*, *Plan*  
"*The Metabarons* is a magnum opus of unadorned emotion and one that will surprise you in its thoughtfulness and craft." - All-Comic.com  
"*The Metabaron*' cycle (...) is, to my mind, the greatest work of graphic fiction ever produced." - David S. Goyer  
"Every chapter has a new surprise, a new twist, a new way to raise the stakes." - [beguilingbooksandart.com](http://beguilingbooksandart.com)  
"For fans of incredible space opera, there's none better than *The Metabarons*." - <http://www.figures.com/>  
"...if you want an epic, brutal space opera with some hilarity throwing there between shocking events then pick up this book." - The Frog Queen  
"If you are looking to get sucked and spit out by this incredible space opera, than I cannot recommend *The Metabarons* any more." - MediaMikes.com  
About the Author Alejandro Jodorowsky (also known as Alexandro Jodorowsky) is a Chilean film and theatre director, screenwriter, playwright, actor, comic book writer, author, poet, mime, musician, and spiritual guru. He is best known for his avant-garde, cult films, such as "*El Topo*," a midnight movie favorite. Juan Gimenez is an Argentinian comic book artist. His style has become famous for the extreme attention he devotes to technical details. Gimenez has also written his own stories, such as *The Fourth Power* series.
