The fact that it's in color makes it an incredible deal, and it took me back to the days of my childhood. I look at the comics made by DC now, and those made back then, and I really see a difference, There was a joy to creating the

characters and actual characterization that makes the reader feel as if the characters are human and real. Marv Wolfman is incredible, and I believe he should start most new series with his art. Comics have lost their heart in some ways, and lessons should be learned from the past. 0 of 0 people found the following review helpful. Some classics stand the test of time By Daniel C. Montiel While the heroes of this amazing, consequential series affected the whole DCU - and still do - it all had to start somewhere. I freely admit that I'm a soft touch for a "kid" version of an otherwise established hero, but I have been reading the adventures of this particular team since I was 6 years old, and one trade paperback into a re-read of my favorite super-hero team ever and nearly 40 years later, I'm happy to keep right on recommending them - Wolfman's stories still work, and work well, and Perez's art is simply top notch. Get addicted! And get a kid you know into them as well. 0 of 0 people found the following review helpful. A must buy! By Chris Maida I have always been a Perez fan, but for whatever reason never read his Titans books, man I was missing out. Love this series, should have jumped on well before now.

The first 8 issues of the groundbreaking 1980s NEW TEEN TITANS now available for the first time in years! When the series launched, writer Marv Wolfman (CRISIS ON INFINITE EARTHS) and artist George Perez (FINAL CRISIS: LEGION OF THREE WORLDS, Avengers) crafted a timeless story starring Robin, Kid Flash, Wonder Girl, Cyborg, Changeling, Raven and Starfire - a group of young individuals with great powers and strong personalities who learned their way in the world through the strength of their friendship and the adventures they shared.

About the Author One of the most prolific and influential writers in modern comics, Marv Wolfman began his career as an artist. Realizing that his talents lay more in writing the stories than in drawing them, Wolfman soon became known for his carefully crafted, character-driven tales. In a career that has spanned nearly 30 years, Wolfman has helped shape the heroic careers of DC Comics' Green Lantern, Blackhawk and the original Teen Titans, as well as Marvel Comics' Fantastic Four, Spider-Man, and Nova. In addition to co-creating THE NEW TEEN TITANS and the universe-shattering CRISIS ON INFINITE EARTHS with George Prez, Wolfman was instrumental in the revamp of Superman after CRISIS, the development of THE NEW TEEN TITANS spinoff series VIGILANTE, DEATHSTROKE THE TERMINATOR and TEAM TITANS, and created such characters as Blade for Marvel, along with NIGHT FORCE and the retooled DIAL "H" FOR HERO for DC. In addition to his numerous comic-book credits, Wolfman has also written several novels and worked in series television and animation, including the Superman cartoon of the late 1980s and currently the hit Teen Titans show on Cartoon Network. His novelization of CRISIS ON INFINITE EARTHS was published in the spring of 2005 by iBooks.
