SpecialKvery detailed, but maybe too much. I've read every issue, i would have preferred more of a bullet point type format rather than a 2 page essay on each character. I was disappointed at first that it wasnt ryan ottley doing the art on the inside, but grew to appreciate the different takes on different characters by the many artists that worked on this handbook.0 of 0 people found the following review helpful. Five StarsBy Ed DubeAll good.0 of 0 people found the following review helpful. A must have for the Invincible fans!By JameswVery informative. Especially for some of my family members who ask a lot of questions. Worth it if you love the invincible world. A must for any fan with what it encompasses.

Anything you've ever wanted to know about the characters in Invincible, but were afraid to ask. Power levels, hometowns, relatives, origins, shoe sizes... it's all here. Written in the tradition of that other famous handbook, The Official Handbook of the Invincible Universe features drawings from some of the top talents in comics and animation.
