Arthur E. Jongsma Jr. : The Older Adult Psychotherapy Treatment Planner before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Older Adult Psychotherapy Treatment Planner:

0 of 0 people found the following review helpful. Five Stars By bellas expected 0 of 0 people found the following review helpful. Three Stars By Customer Helpful but not all inclusive. 6 of 7 people found the following review helpful. Truly disappointed! By Naomi Jenkins Poorly written, appears to be a copy of information from previous books. Not as comprehensive as it could have been to help the elderly in a therapeutic setting. Truly disappointed with the content!

Saves you hours of painstaking paperwork, while providing optimum latitude in developing customized care and

treatment plans for the unique needs of older patients Following the same format as the bestselling *The Complete Psychotherapy Treatment Planner*, this invaluable sourcebook supplies all of the essential building blocks you need to create focused, formal treatment plans that satisfy all of the demands of HMOs, managed care companies, third-party payers, and state and federal review agencies. Organized around 27 main presenting problems, from dementia and depression to the psychological impact of physical decline, this book features: Thousands of well-crafted statements to choose from, describing goals and treatment options for cognitive, behavioral, and mood disorders detailed in the minimum data set required by HCFA A sample plan that can be emulated in writing plans that meet all requirements of third-party payers and accrediting agencies A presenting problem list that includes all relevant DSM-IV categories A quick-reference format that allows you to locate treatment plan components by behavioral problem or DSM-IV diagnosis Large workbook-style pages affording plenty of space to record your own customized goals, objectives, and interventions
