Evan Dorkin, James Van Hise : The Real Ghostbusters Omnibus Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Real Ghostbusters Omnibus Volume 1:

5 of 5 people found the following review helpful. A treasure for an old RGB fan like me.By Fritz BI have all of the comics collected, but bought this anyway--having it means that I don't have to dig out all of those nearly quarter-century old comics, and I can let my friends read it and experience the same wonder I did.You have to understand--these came out about the same time the cartoon was going down the toilet with the "Slimer And The Real Ghostbusters" nonsense. Some of the storytelling doesn't hold up quite as well as I'd hoped, but it was still a breath of

fresh air at the time. And some of the stories--most notably "The Father Thing Trilogy" are still some of my favorite Ghostbusters stories ever to this day. There were a couple of little faults, though. The pages in #2 were printed out of order, just like in the original. Some of the coloring doesn't work as well on the glossy paper as it did the matte paper of the original printings. On the other hand, IDW did fix a couple of panels in #8 where NOW forgot to color Janine in! Suffice it to say, very happy with this, and looking forward to Vol. 27 of 8 people found the following review helpful. A True MUST-HAVE for any fan of the Real Ghostbusters. By Garrett Wroblewski I remember being five years old when I laid eyes on issue #4 of The Real Ghostbusters at the comics rack of my King Soopers grocery store in Evergreen, Colorado. By then, I had watched every episode of the syndicated show, had a room full of RGB toys and props, and proudly owned a vhs copy of the film Ghostbusters (I still had to close my eyes when the terror dogs took Dana). I, of course, immediately fell in love with the book and had my walls plastered with the pin-up posters. When I was 12 or 13 I began to believe I was too old for such things, and I remember selling all of my comics for \$20 and ridding myself of many an action figure at a garage sale. I have, honest-to-God, been hoping for the past 12-15 years that someone would reprint the NOW Real Ghostbusters book for me to enjoy. I hold it in my hands and it is everything I remembered it to be and more. Maybe I'll never get that third movie Dan Akroyd's been promising us for what seems like decades, but as long as IDW keeps the boys alive in print, I will gladly keep these beloved characters in my heart. Admittedly, I am seeing these through rose-colored glasses. The inking is a mess. A handful of issues seem like rather slap-dash affairs. The wry sense of humor intermingled with the macabre is still a most original and delightful mixture, one that the comic replicates perfectly from the movie and cartoon. The three part "Demon-Son Trilogy" arc elevates the series from really good to classic, and left an indelible impression on my childhood. It still holds up surprisingly well over 20 years later. Grade: A4 of 5 people found the following review helpful. I Wanted to Like This. By Pamela I am a big fan of the show, "The Real Ghostbusters", so I eagerly awaited this omnibus of The Real Ghostbusters comic books. I understand that the show was intended primarily for children, but as an adult I can watch it with other adults and have a good time. I cannot say the same thing about the comic book, which - other than the first storyline, where the Ghostbusters are in parallel worlds - has juvenile storytelling, cartoonish art and over the top coloring. The gangster storyline was especially annoying. I really wanted to like this, but I think that unless you read these as kids, or are collecting everything Ghostbusters related, you as an adult are going to be turned off. Now kids might like this, but if you've never read these before I'd have to say no.

Forget Egon's rules the streams have been crossed, the dead have risen, and a free-roaming apparition is part of the gang! It's The Real Ghostbusters, ladies and gentlemen, and in this first volume omnibus collection you can score issues #114 of the classic NOW comics series. Be there as Ray, Peter, Egon, and Winston keep doing what they do. After all, they ain't afraid of no ghosts!
