**Cullen Bunn : The Sixth Gun Deluxe Edition Volume 1** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Sixth Gun Deluxe Edition Volume 1:

1 of 1 people found the following review helpful. Loved Every Second of It!!!!By ShihadI had seen the paperback versions on the shelf at my local store, and the covers had always intrigued me. They draw your eye towards them with the white and red. But I never bought any of them and just flicked through the pages. But when this Deluxe edition was out for pre order I decided now was the time. The deluxe edition is a massive tome, bigger than Omnibus,

Absolute or any of Images Hardcover editions (for comparisons). Though the size does not take away anything from the story. I started reading it and loved it so much. I had to put it down so I could savor the book. It is a well written comic that is set in the Wild West but throws in zombie/mystical/monsters aspects. Some of the action scenes play out like a movie, one scene they are on a train inside and a character causes an explosion. the next panel cuts to an outside view of the train exploding (Felt like a scene right out a movie) There is intrigue with the characters, How did they get to this point? What is the one thing they are hiding from their past that ties in the story? So after finishing this deluxe edition, I ordered the paperbacks right up to date and excited to read more. Not since finding Locke and Key about a year or so ago, have I fallen in love with a new series so bad, that I had to catch up on it right away! 1 of 1 people found the following review helpful. The 6th Gun Review By abefroman Simply....this is a fun read. The story is easy to follow, the characters are interesting and flushed out, and action is great. I like the historical tie-ins and religious symbolism too. As for the artwork, it fits the story, and is quite good. The over-sized edition allows you to appreciate the detail within the panels, and the coloring job on it is fantastic. As for the book, it has a sturdy sewn binding, ribbon strip bookmark, thick, matte paper, which makes the art look incredible, and great extras. If you are into western, war, or even zombie stories, I would give this a go. It truly is an original story, and is quite good. 1 of 1 people found the following review helpful. The Sixth Gun series is terrific, and this oversize hard-cover is a wonderful way ... By Fox\_37 The Sixth Gun series is terrific, and this oversize hard-cover is a wonderful way to experience the first 2 story arcs. Well-written with beautiful, distinctive art. I've never been a huge fan of the "supernatural western" genre, but this won me over easily. This is just the beginning of the SG story, and it will leave you wanting more.

During the darkest days of the Civil War, wicked cutthroats came into possession of six pistols of otherworldly power. In time, the Sixth Gun, the most dangerous of the weapons, vanished. When the gun surfaces in the hands of an innocent girl, dark forces reawaken. Vile men thought long dead set their sights on retrieving the gun and killing the girl. Only Drake Sinclair, a gunfighter with a shadowy past, stands in their way. But the guns have a power... and a destiny... more terrifying than anyone imagines! This deluxe edition collects the first 11 issues of the smash hit series, The Sixth Gun, in a massive, new, oversized format jammed with extras and bonus features, including never-before-seen pitch artwork, cover gallery, and the previously web-exclusive Christmas yarn, "Them's What Ails Ya!"
