Justin Jordan : The Strange Talent of Luther Strode, Vol. 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Strange Talent of Luther Strode, Vol. 1:

1 of 1 people found the following review helpful. Five stars By smitty jones Really good book. Bought it on impulse and was surprised by it. The art is good, not the best, but definitely not the worst. The writing was what made this book five stars. It is well plotted, tells a unique story, has interesting characters, sets up the main characters motivations well, creates a villain that feels threatening, and is paced expertly. This book also scored a few extra points thanks to the posters that are in the main characters room. 0 of 0 people found the following review helpful. A great

beginning to a longer story
By S. R. Tounzen
First I must agree with others that this book is definitely for Adults only. The Violence is amazing, but very graphic, so not suggested for young children. Second, if you are a comic book fan who likes classic story lines, but with a more violent take on it, then go ahead and buy this now. This is the first (from what I have heard) book of a trilogy. This is the story of a young high school comic nerd who buys a mail-order magazine that is supposed to get you fit and all that (to stop the bully), but it is really a test to see if anyone possesses the talents of extreme control over the body, as our hero Luther Strode does. (Minor-Spoiler portion) I really enjoyed that Luther struggles like in any other origin superhero story, to maintain his powers and to teach people lessons through beating up the bad guys. Trying not to kill anybody and be the "Ideal" superhero as he is a comic book nerd. But eventually he learns that won't work, and begins to start killing, and that's when things get VERY interesting. The Art in this book is superb. Currently Vol 2 is about to end next month, "The Legend of Luthor Strode", and as much as this one is an origin story, the next is more physical action after Luther as embraced his killer nature. There were some very sad moments, and if a book can make me feel emotional in any way, I take that as a sign of great writing. Bottom line, BUY THIS BOOK!! 1 of 1 people found the following review helpful. Buy This Book, Buy This Book!

Really loved this book! It was a ton of fun! Tradd's artwork is awesome! And Justin's writing is great! If you want a book that's good from a technical stand point, and just a lot of fun read. READ THIS! I will throw in the disclaimer that it's pretty violent and there's a good bit of gore. That didn't bother me at all, the hyper-violence actually gave it even more personality in my opinion, just thought I'd throw that out there so you know. I also met the creators at Heroes Con and they were awesome as well, which only makes me like the book even more. If you haven't read this yet, you should!

Luther Strode is just your average geek until he sends for an exercise course from the back of an old comic book. What he gets is the instruction manual from a murder cult as old as mankind that does everything that it promised and more!
