Nick Spencer, James Asmus, Tom Peyer, Elliot Kalan, Steve Lieber : The Superior Foes of Spider-Man Omnibus before purchasing it in order to gage whether or not it would be worth my time, and all praised The Superior Foes of Spider-Man Omnibus:

1 of 1 people found the following review helpful. Funn yBy RPKThis was very funny and well done. I enjoyed it all the way through.0 of 0 people found the following review helpful. Hilarious storyBy TylerVery entertaining the entire time.11 of 11 people found the following review helpful. Small Omnibus , Big LaughsBy Stephen Vincent KemptonThis Omnibus is quite small for being an Marvel Omnibus consisting of only seventeen issues of The Superior

Foes Of Spider-Man but it is priced right and a great value. Created in the summer of 2013 to coincide with the relaunch of the Now "Superior Spider-Man" this planned 12 issues series got five extra issues for a run of 17 which ended late in 2014. The critics loved it, but sales never matched their passion. The book is in the large oversized format and reprints all the covers and the alternative covers and Steve Lieber's commentary for issue #17. The inside cover is a different illustration wrap around cover than the pictured dust jacket. It is nicely sewn binding with no gutter loss. Priced cheaper than the three individual Trade Paperbacks a great bargain. Nick Spencer of Morning Glories fame really impressed me with the writing here, all told from the perspective of Fred Meyers (Boomerang). While others have been singing his praise this is his first offering which really connected with me. Steve Lieber of White Out fame keeps his serious gritty style. I think this help adds to the humor, rather than switching to a sudden cartoony style. While Boomerang is the focal character it also focuses on the other four members. The Shocker who is murdered more than once. Speed Demon who is physically fast but mentally slow. Overdrive who has one of the lamest powers. Plus the new female Beetle, who is the daughter of Hammerhead. The story of Sinister Six, now consisting of only five members is actually quite intricate with numerous surprises. Giving a condensed version would probably not do it justice. It revolves around the group trying to recover the head of Silvermane. We get a good helping of other Marvel characters who get mixed of in the plot like: Mirage, Hydro-Man, The Owl, The Chameleon, Hammerhead, The Punisher and The Black Cat. Issues #10 and #11 consisted of multiple smaller stories done by fill in writers and artists. While these are fun little vignettes, they don't add much to the central story and kind of stalled out the main narrative flow. The editors of this volume have corrected this problem by pulling these two issues out of the sequential order and adding them after the conclusion of issue #17. While this might be a controversial decision, I think it was the right one. Not being a big Deadpool fan, I don't find many Superhero books that make me laugh, but this one really did. My Highest Recommendation.

Spider-Man's deadliest foes, in their own book at last! No, not him. Or him. Or her. Or them. We're talking Boomerang! Shocker! Speed Demon! Overdrive! The new Beetle! Wait, has she even met Spidey? What are these guys trying to pull? Well, isn't that the big question as this questionable quintet set about attempting to prove they're Superior to any Sinister Sextet! Can they stand each other's company long enough to get their hands on the legendary item that will put them in charge of the New York mob? COLLECTING: THE SUPERIOR FOES OF SPIDER-MAN 1-17
