Matthew Manning : The Superman Files before purchasing it in order to gage whether or not it would be worth my time, and all praised The Superman Files:

2 of 2 people found the following review helpful. Superman FilesBy JMM[[VIDEOID:64b996fd7ddedd2c6890b1a485032bb5]]"The Superman Files is a wonderful compilation of information about Superman. It contains the character's complete history as seen in the decades of comic books (note that this book does not pertain the the motion pictures, etc).The book is compiled in the style of a dossier, with the bulk of the information coming by way of "artifacts" -- articles from the Daily Planet the Daily Star; case files from the Metropolis Police Dept; evaluation reports from Stryker's Island; and many others. There are also a bunch of images taken straight from the comics, many of which are accompanied by a brief description of the character/event depicted.This is a fun way to compile information, but it's a bit of a letdown here because all the artifacts are simply printed on pages -- other books have done this better (such as the Harry Potter Film Wizardry (Revised and

Expanded)) by having some of the artifacts be removable and/or interactive. *An example: "The Superman Files" features a map of Metropolis printed on a page; while The Dark Knight Manual: Tools, Weapons, Vehicles and Documents from the Batcave has a fold-out removable map of Gotham that is 4 times bigger and thus so much more detailed (not to mention you could take it out and display it). Regardless, there is no doubt this is a quality book. The paper is thick and glossy. There is a very nice image to text ratio that will make it appealing for those who like to read as well as those who take more delight in the visual aspects. Recommended for fans of the Superman comics. 1 of 1 people found the following review helpful. Five Stars By Susan T. My husband was really excited when I gave this to him and immediately started reading. 1 of 1 people found the following review helpful. Pleased with price..... By Maleficent The book arrived in perfect condition. It arrived in a clear wrap. I did not remove the wrap because its a Christmas gift. Its a great book for fans. You can use other websites to get more detailed info in the inside.

The Superman Files reveals the secret life of the man named Clark Kent and the world of the greatest superhero. It's a comprehensive account of his history, employing clippings from the Daily Planet, journal entries, surviving artifacts from Krypton, schematics for the Fortress of Solitude and other technology, files from Stryker's Island Prison, as well as hundreds of "photographs" of Superman's enemies and allies culled from modern Superman comics. The Superman Files offers a complete, in-depth life story of the Man of Steel, from his birth on Krypton as Kal-El through his present, as Clark Kent and Superman, and even onward into the future. One thousand years from now, a group of superpowered teenagers is inspired by Superman's legacy. They band together and form the Legion of Super-Heroes, a crime-fighting group dedicated to protecting the citizens of the United Planets. One of these teens is Brainiac 5, a highly intelligent descendant of Superman's arch foe, the original Brainiac. Like many people in the 31st Century, members of the Legion idolize Superman. They frequent the Superman Museum and marvel at tales of his past. A few of them even travel back in time to Clark Kent's teenage years. They recruit him to their team, thereby jumpstarting the adventures of Superboy, the Boy of Steel. In a future without precise records of the 21st Century, Brainiac 5 takes it upon himself to compile a tribute to his hero and friend. Collecting accounts from a myriad of sources, he compiles the universe's greatest historical record of the life and times of the Man of Steel. The Superman Files chronicles seventy-five years of adventures in one easy-to-understand history of the Last Son of Krypton. Appealing to Superman fans of any age--from new collectors just starting out with the New 52 to longtime readers who have followed the character from his very first adventures--there is something for everyone. With a modern tone and a deep respect for his legacy, The Superman Files is not only entertaining, but it is also a complete and thorough history of the Man of Steel. SUPERMAN and all related characters and elements are trademarks of and DC Comics. (s13)

"The great thing about books like this is they retain the history of the character. We may be a couple years into the New 52, but you can find all the important aspects that made Superman the character we all know and love. The book comes across as more of a scrapbook of Superman's history ... [with] many great images and moments, along with some rather fascinating pieces that really fleshes out the world of Superman. Simply put, this is an incredible book." -- Tony Guerrero "The materials are arranged in a chronological manner, so it's easy to follow along. It's a nice way to present the history. If you have been following Superman on and off, this book is going to fill in the blanks for you. As to the completeness, well, the scope of Superman's comic universe is just too immense to cover everything, but this book does a good job." -- Teoh Yi Chie "The book outlines Superman's history, offering details about friends like Lois Lane, Jimmy Olsen and Perry White as well as facts about such enemies as Lex Luthor, Brainiac, Doomsday and Bizarro. Among the features: secrets of the daily life of Clark Kent; Daily Planet newspaper articles; eyewitness accounts of Superman's exploits; childhood mementos and journal entries; top-secret data known only to Superman; favorite destinations in Metropolis; schematics for the Fortress of Solitude; files from Stryker Island Prison; and hundreds of images of Superman's enemies allies." -- Kevin Melrose "Have a hardcore Superman fan in the house? Look no further as The Superman Files is a stunner, and serves as a historical record for the Man of Steel." -- April Neale "Even if you have read Superman continuously from the mid 1980s to the present, I can imagine fans of the character paging through this large volume with immense enjoyment, reveling in the variety of art selected from across that period, generally presented as if photographs posted into a scrapbook, with attendant commentary and textual pieces telling the overall story as if from a variety of perspectives and viewpoints." -- Kent G. Hare From the Author "While it tells Superman's story first and foremost, the book is chock full of Easter Eggs for the fans, and even contains a few nods to our previous book, The Batman Files. Covering everything in Superman's life from John Byrne's revamp to the revisions of New 52 and even into the 31st Century, we attempted to make The Superman Files the most comprehensive life story of Superman to ever see print." -- Matthew K. Manning About the Author Matthew K. Manning is a comic book writer, historian, and fan. Over the course of his career, he's written comics or books starring Batman, Superman, the Justice League, and even Bugs Bunny. Some of his more recent works include AMP's The Superman Files. He lives in Asheville, North Carolina, with his wife, Dorothy, and his daughters, Lillian and Gwendolyn. www.matthewkmanning.com
