This is what superhero battles should be like!By Kid KyotoAfter her family was killed by 3 super powered strangers Dara Brighton discovered a magic sword her father hid from the family. Now she's hunting the killers and has the power to finally stop them.With this book The Sword swings into

high gear, offering the first of 3 apocalyptic battles against Dara's foes. The first half is quite slow as she and her friends track down the first killer, the water-controlling Zakros but once she does the action never stops. The Luna's really think through their own story, giving both Dara and Zakros impressive powers but with limits, and the battle is choreographed like a movie with the action flowing neatly from panel to panel, scene to scene. It's a major improvement over the usual American comic where people swing their fists while reciting their life story. My only real complaint is that, like another reviewer, I had the cover come off in my hands during my first reading. If you see this in a store make sure the binding is solid. 0 of 0 people found the following review helpful. Recommended By Ozwell

The Luna Brothers' epic "The Sword" is the sort of comic that fans will press on their non-comic reader friends. It's that good. It achieves that wonderful balance of being accessible to both people new to comics as well as the long term fans. Plot? Magic sword causes havoc in present day USA. But it's so much more - the pacing and characterisation make this worth seeking out. If your budget can manage it, buy all three volumes. You'll enjoy reading the chapters one after the other. Those of us following comic have to wait a month between installments. The original comic is currently working towards it's conclusion, so it's all waiting for you. A word of caution - this is a comic about what a magic sword can do to people, so the violence is a level or two beyond what you may be expecting. If you can get by that, you're in for one of the best reading experiences you're had in years. 0 of 0 people found the following review helpful. Great read. By Jeremy

Great book read the whole collection highly recommended.

Dara Brighton has discovered more information about the three powerful strangers who murdered her family. Armed with this knowledge and the mystical sword, her first order of business is to find the one who murdered her sister and make him pay.
