Mark Millar : The Ultimates 2: Ultimate Collection before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Ultimates 2: Ultimate Collection:

2 of 2 people found the following review helpful. The idea of super soldiers spreads to our allies in other countries as ...By AndroooUltimates 2 . . . As much as I am excited for Avengers: Age of Ultron, I wish Avengers 2 was based off this story (combined with Under Siege from way back in the day). Basically, I want to see a big battle between heroes and an actual team of super-villains we haven't seen in the Marvel Cinematic Universe yet. And this volume of Mark

Millar's and Bryan Hitch's Ultimates has just that. It may be a slow build, but those last few issues are well worth the wait. And that eight-page spread in issue 13 is glorious! Basically, plot synopsis: whereas Ultimates volume 1 had the team struggling to be more than just a publicity stunt, here they have proven their worth to the military and begin being used on international missions that suit America's interests. The idea of super soldiers spreads to our allies in other countries as well. Naturally, this movement upsets certain governments, and so a coalition secretly forms and begins their own infiltration and sabotage of the Ultimates. 4 of 4 people found the following review helpful. Fun sequel to the Ultimates By J. Nelson This book is a fun follow up to the Ultimates: Ultimate Collection. I think a lot of creative teams would purposely try to take the original and make everything better, but this collection never really felt like that. These stories continue the character development not relive them. The plot of the book (without spoilers) is the team battles an international terrorist group of super soldiers, while discovering one their own is a double agent. Hank Pym's depression fueled adventures serves as comic relief, the drawings of his gross apartment still make me laugh after several readings. I highly recommend this volume to fans of the first; Mark Millar and Bryan Hitch obviously worked very hard and put a lot of care in to telling an fun action packed story. 0 of 0 people found the following review helpful. Modern classic. By Bryan The best version and most realistic of the Avengers. Art improves.
