Mark Millar, Bryan Hitch, Andrew Currie : The Ultimates Vol. 1: Super-Human before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ultimates Vol. 1: Super-Human:

0 of 0 people found the following review helpful. Praise not deserved!By Sultan I. KhetaniThis story is not a good reimagining of the avengers. No one is likable in this expect Wasp(poor girl, hank is a douche). They turned every likable avenger into manipulating sociopath. SHIELD is just full of hypocrites(then again, they are like this in the 616 universe). If you are Mark Millar fan, you will be pleased by the unnecessary violence. But if your an avengers fan, this isn't for you.0 of 0 people found the following review helpful. More interesting than greatBy Danny

ArthurImagine if looking in on super heroes was less grandiose and mythological and more....reality television. These are super powered folk with some serious issues. It's a unique, grounded glimpse at what super heroes might be like in the real world. Swerves a little too heavily into making these characters unlikeable. There's also relatively little action, but that's ok because this more about the exploration of these mythical beings and their human flaws. I would say it was more interesting than entertaining. You can clearly see how this graphic novel heavily inspired the Avengers films.0 of 0 people found the following review helpful. Everything old is new again.By Guy with BeardBasically a remake of the Avengers, but grittier and not as shiny. The team has character flaws that are like the rest of their lives. In other words, their problems are super powered as well. Hank has an inferiority complex that makes him abusive. Bruce is a true Dr. Jekyll and Mr. Hyde. The Hulk is not mindless, in fact, he is sadistic and cunning. Janet has a secret that could cause problems. Tony is on borrowed time. Thor is a hippie and possibly delusional. Sounds like the makings for a great team.I get the desire to update and modernize the tale. But I am not sure that necessarily means it should automatically be darker. The story has lasted for quite a long time as it was without that many complaints. But it is the nature of comics to reinvent themselves every once in awhile.The artwork is exceptional. At times, there seems to be the tendency to rely heavily upon the artwork to tell the story.This collected the first six issues so there is plenty of room to develop it. Overall it isn't bad for a remake.

Comic Book #1
