**Jason Aaron : The Unworthy Thor** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Unworthy Thor:

0 of 0 people found the following review helpful. The Unworthy Thor By Allerdale "The Unworthy Thor" was a limited comic series written by Jason Aaron and illustrated by Olivier Coipel. Its purpose was to reconcile the character gap between the last time readers saw the mighty god of thunder in smashing action in the major events of Siege and its aftermath to his current humbled appearance in the ongoing Thor series featuring female Thor. To the curious onlooker

familiar with the Marvel cinematic universe, I bet you have these questions about the cover: What happened to his luscious locks? Where oh where is Mjlnir?! The revealing question I want to point out to you: Why does he refuse to be called anything other than Odinson? It's a long story, but the answer is a familiar topic to those who have watched the Thor movies or skimmed the comics: worthiness. From the first panel, we meet Odinson fighting. What is he fighting for, he won't tell yet, but the clue is in his narration across the panels. He used to race comets and win. He used to hear thunder roaring through his ears as he tore through the cosmos, but that was when he was worthy of the power of Thor. A few pages later he reveals worthiness is something he's fighting for, both to achieve it again and believe in himself to achieve it again. Why did he lose it in the first place? Because the ghost of Nick Fury transformed into an inhuman creature called The Unseen (who is not Nick Fury reincarnated by the way), and he had a few poignant words with the then worthy Thor. Overall "The Unworthy Thor" is surprisingly complex for a limited series but it still excels at focusing on what it needs to. There are few distractions around the main story, like a special cameo from a character who originated from the "Journey Into Mystery" series and a major beloved character returning from the Thors (Secret Wars: Battleworld), but none of them felt like extras just to increase page count. The character growth gifted to the Odinson is my favorite aspect by far, even besting the phenomenal artwork and tight control of the plot. Odinson makes choices that prove he's grown beyond the stereotypical traits given to him in past comic runs. For example, he broods about a lot of things which he did plenty of in Straczynski's run, but without the power of Mjlnir he takes matters into his own hands even more despite his increased vulnerability. Waiting for fate to work itself out is the exact opposite of what the older, wiser Odinson is willing to do, but he is not as brash as the silver age comics either. While this series is not the most memorable in Marvel's rich history within and without the Thor eras, it is an entertaining and beautiful limited series filled with the character growth the Odinson was severely overdue for. Jason Aaron kept his image as a hero, but he gave him the heart of a human: one that could be broken but one that chooses to overcome all obstacles. 0 of 0 people found the following review helpful. A new beginning By Guy with Beard Thor became unworthy she Nick Fury whispered in his ear. What he said is unknown. Thor became unable to lift his hammer, Mjlnir. He is now known as Odinson. He has taken the first steps towards becoming worthy again. In this collection, Odinson goes on a quest to find a mysterious other Mjlnir. But along the way, he discovers old Asgard has been stolen. He teams up with Beta Ray Bill (and Toothgnasher the goat) to find it. His path will bring them into conflict with the Collector and Thanos. This is a decent story arc that does actually answer some questions. The artwork is okay but not the greatest. Thor fans should be pleased. 0 of 0 people found the following review helpful. AMAZING! Before Jason Aaron I didn't read any Thor ... By Yusuf Kudsi AMAZING! Before Jason Aaron I didn't read any Thor comics because I wasn't interested in him, but after hearing a lot of good stuff about Jason Aaron's run I gave it a try and since then I am in love with Jason Aaron's run and this comic is great like all his other Thor books the art is AMAZING the story is cool, if you are fan of Thor or Jason Aaron just read it ^\_^

Unfit to lift his hammer, with another now wielding the power of Thor, the Odinson's desperate quest to regain his worthiness takes him out into the cosmos - where he's learned of the existence of a mysterious other Mjlnir! This weapon of ultimate power, a relic from a dead universe, is the key to the Odinson's redemption - but some of the greatest villains of the Marvel Universe are anxious to get their hands on it as well. And when the Realm of Old Asgard vanishes, the Odinson's hopes might go with it - unless good tidings from Beta Ray Bill offer fresh hope! Can the Odinson reclaim his honor, or will the power of thunder be wielded for evil? Let the battle for the hammer commence! COLLECTING: THE UNWORTHY THOR 1-5
