Swanson For anyone wondering if their going to get their moneys worth with this book I tell you now there's tons to read here.so much that the wealth of pages lends enough weight to this book to kill a zombie should you find yourself in need.also it's different enough from the t.v. series that anyone thinking its not worth their time wouldn't need to worry.these books cover a lot so anyone not wanting any spoilers because they'd rather watch the t.v series shouldn't read more than this book AFTER they watch WD season 3.

This deluxe hardcover features the first 24 issues of the hit series (complete with covers) all in one massive, oversized slip-cased volume. Perfect for longtime fans, new readers, and anyone needing a heavy object with which to fend off The Walking Dead!
