Robert Kirkman : The Walking Dead Omnibus Volume 5 (Walking Dead Omnibus Hc) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Walking Dead Omnibus Volume 5 (Walking Dead Omnibus Hc):

3 of 3 people found the following review helpful. The Beginning of the All Out War with Negan and the Saviours. Powerful!!!!By Marc GoldfingerTo be frank, this is one of the most exciting episodes of the characters in the Walking

Dead. Rick Grimes and his community discover other communities that they can trade with. The dark factor is a character named Negan who is the head of a group called The Saviors and he forces all the communities to give 50% of their goods to his group. There are so many twists and turns in this part of the story; I don't want to ruin the fun with any spoilers. Let me say that Negan is a brilliant strategist with street smarts and a sense of brutality that strikes fear into the other communities--but then there is Rick Grimes and his group who challenge Negan--and they don't know what they are getting into. This book is chock full of goodies. It's totally different than the show on TV but equally as excellent. Grab it while you can. is selling this for a ridiculously cheap price--people will be paying twice the price by Spring. Get it now. Believe me, I don't work for . I just love The Walking Dead and this is one hell of a chapter in the lives--and deaths--of the people in this story.1 of 1 people found the following review helpful. 5 for 5 on collector's editionsBy Dave AI've reviewed these before, as I now have all 5 of the ones currently out there. These are awesome collector's editions. They are large and hefty, so don't buy it if you want to read it on a plane or laying down in bed, but if you want a higher end edition that can be reread or passed down, then this is the one for you.I highly recommend the comic if you are a fan of the TV show. The show takes a few liberties in the story, so reading the comic is somewhat like following a different story. These collector's editions have extra artwork and input at the end that is really neat to look through.0 of 0 people found the following review helpful. Avoid this book at all costs.By Eduardo VillarrealThis is where the Walking volume went downhill. Just poor strytelling in every area. The main villain is a joke, I also lost any remaining simpathy I had for Rick. The story just drags and drags, it only accelerates for a couple of moments of cheap shock value bits. There are a couple of beautiful double page spreads by Charlie Adlard, but that's the only thing worth about his book. If you need to complete your collection go ahead an buy, I have the previous Omnibuses and I did regret buying this one. I should have moved to the cheapers trades.

This deluxe hardcover features 24 issues of the hit series, The Walking Dead, along with the covers for the issues all in one massive, oversized slipcased volume. Collects The Walking Dead #97-120.
