**Robert Kirkman : The Walking Dead, Vol. 1: Days Gone Bye** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Walking Dead, Vol. 1: Days Gone Bye:

0 of 0 people found the following review helpful. The Walking Dead #1 By Sherry H. I'm a huge fan of the TV series,

just now starting to read the comics. Got #1 for free and loved it, so my fiance went and bought me the 1st compendium that has 1-48 and I read a bit every night. I can't believe it took me so long to get around to reading this comic series, but now I see why it is so popular. Definitely worth giving a try even if you aren't a comic book or zombie fan. Great character development and most importantly great story lines.0 of 0 people found the following review helpful. Dead Good Reading MaterialBy Alex PhillipsNormally I wasn't a fan of the comic book series until I saw the television show back in 2011. Since it was so addicting I couldn't stop watching it. Eventually I found myself curious about the comic book that started it all. Maybe its not too late to be a fan of the comics.1 of 1 people found the following review helpful. Love itBy PaulAwesome the storyline is great, love the characters. We need Daryl tho. Also rick looks different from the other comics.

The world we knew is gone. The world of commerce and frivolous necessity has been replaced by a world of survival and responsibility. An epidemic of apocalyptic proportions has swept the globe, causing the dead to rise and feed on the living. In a matter of months society has crumbled: no government, no grocery stores, no mail delivery, no cable TV. In a world ruled by the dead, the survivors are forced to finally start living.

From Publishers WeeklyTaking a well-worn genre flesh-eating zombies overrun the world and the unlucky surviving humans must deal with the gruesome aftermath and approaching it from a purely character-driven point of view propels this series into the spotlight from out of nowhere. This collection of the first six issues of the ongoing series opens with police officer Rick Grimes awakening from a gunshot-induced coma. From here, he's immediately dragged into a world where dangerous revenants are shambling amok without any sort of an explanation. From the moment Grimes comes to, it's a harrowing battle to avoid hordes of decomposing zombies and a hope-against-all-odds search for his missing family. Grimes makes his way to Atlanta, the nearest large city where there may be other living people, and events take several unexpected turns upon his arrival, as he meets up with a rural encampment of survivors. Of course, as in recent hit movies *28 Days Later...* and *Dawn of the Dead*, the last humans may turn out to be as much a danger as the zombies. Forceful scripting that gives the book a strong grounding in reality, crisp bw artwork, a shocking final sequence and brisk, gory proceedings elevate this book from the trash heap of pedestrian horror comics.
