I've purchased all volumes up to 22 and the TV show has just about caught up to where I am in the novels. These books are friggen awesome. I don't read much and my buddy lent me VOL 1 after he knew I liked the show. Well, I burned through the first one and then just went on a tear buying 4 volumes at

a time...the price is pretty good for what you get out of these. \$9-\$15 is the range I've paid per novel, I'm not sure why they aren't the same but anyways, I keep buying them none the less. The story was written before the TV Show and the show follows the story but there is some differences. The written story is more violent and graphic then the tv show but the tv show does a decent job of sticking with main ideas. I've noticed that certain plot things that happen in the book also happen in the show but there is a unique twist like a different character it happens to or something like that. Which makes reading these volumes great cuz I have some idea of where the story is going (after having watched all tv episodes) but there are still surprises. If you like the TV show and haven't read these, give it a try and you will get a whole new experience of the Walking Dead story. I'm putting this same review under every volume I've purchased (1-22) so people can see it. go buy these!
