With a herd of walkers descending on the group led by the Whisperer's, it's up to everyone to take out this threat once and for all. As Negan comes back to Rick with a surprise of his own, Rick is a leary of him but finds that he might be useful after all. With everyone fighting the herd and the

Whisperer's, it takes a hidden surprise from the group to turn things in their favor with the most shocking and bloodiest war to date. They are left with the thought, did they kill all the Whisperers or is something more sinister coming in the future! Wow, Wow Wow is all I have to say about this volume of comics! This volume is so full of surprises that it's gonna make waiting until the next volume is release, kinda hard to do because you want to know what is gonna happen next for everyone, right now!! I truly believe that Negan is playing Rick but only time will for that and I so wish that everything that has played out in the comics so far, will find it's way to the show just to see it play out on screen!! Thank You to Robert Kirkman for making me want to read comics like this one that keep you coming back for more!! This book came from my own personal Library! 3 of 3 people found the following review helpful.
