Eric Stephenson : They're Not Like Us Volume 1: Black Holes for the Young (Theyre Not Like Us Tp) before purchasing it in order to gage whether or not it would be worth my time, and all praised They're Not Like Us Volume 1: Black Holes for the Young (Theyre Not Like Us Tp):

2 of 2 people found the following review helpful. Without a question-- this is one of the best books of 2016 (right next

to SagaBy Micah SorianoTake a chance on this new and upcoming series. Without a question-- this is one of the best books of 2016 (right next to Saga.) It gives subtle X-men vibes with real drama, edgy characters, and clearly a set up for a plot that won't go easy on it's audience. This one is a must!!0 of 0 people found the following review helpful. These story arcs deal with very honest and troubling issues like attempted suicideBy CustomerThis story line goes out to anyone who feels on the "outside" of normal society. These story arcs deal with very honest and troubling issues like attempted suicide, theft, and murder. Some of the special powers of the kids can feel a bit dull because they've all been done before but the writer somehow brings a nice feel of humanity instead of supernatural to the characters.1 of 2 people found the following review helpful. The "evil" actions of the group are predicated on the prejudice they have experienced much like in the X-Men series and many othBy Gregg SThis was a let down. The pitch was a played out troupe, but I was hoping that this would be a different take on superpowered angsty teens. The group comes together in a relatively unexciting way. Some of the group is given more backstory than others. The lead protagonist is torn with this new life and friends she has found herself part of. The "evil" actions of the group are predicated on the prejudice they have experienced much like in the X-Men series and many others.The art is acceptable, but nothing outstanding.The series didn't leave me with enough interest to continue reading.Some may enjoy this, but I did not. If you're in to caped or spandex superheroes with fantastic powers, this likely won't be for you either.

Eisner-nominated Nowhere Men writer Eric Stephenson teams up with red-hot artist Simon Gane for an all-new ongoing series! We all have advantages over one another, but what if you were capable of things most of us can only imagine? What would you do and who would you be? A doctor? An athlete? A soldier? A hero? Everyone has to make a choice about how to use the abilities they're born with... but they're not like us.
