Walt Simonson's run on The Mighty Thor is one of the greatest runs in the book's history and it all comes to a close with a bang! If you're a long time Thor fan or have only come to know Thor through the recent movies, this collection is recommended for you as a lot of the movie comes from things in this run. All 5 volumes are great reads and the new

coloring only adds to the beauty of Simonson's art and storytelling. Don't miss it! Highly recommended reading!0 of 0 people found the following review helpful. Forsoothe Pick This UpBy thirtdwinIf you can get past the hokey Shakespeare type dialogue- this was an exciting time for the writing of this character who's become even more popular as time has gone on.0 of 0 people found the following review helpful. more great Thor comics by Simonson BuscemaBy Richard RogersMore great Thor stories written by Walt Simonson and illustrated by Sal Buscema. A strong creative team doing very good comic book work. Sad to get to the end of their run and know there are no more to enjoy.

Few people have ever left their mark on one character quite the way Walter Simonson has. His work on the Mighty Thor swept the Norse God of Thunder to heights never before seen and rarely achieved in his wake. Spanning epic tales of heroism and treachery, love and war, Simonson's work is often considered the definitive Thor. From the majesty and mystery of fabled Asgard to the gritty streets of New York City, Thor was never the same. That is the mark of a true visionary. This fifth volume concludes the collection of Simonson's epic run!**COLLECTING: THOR 375-382**
