Booster Gold shines again in Time Masters: Vanishing Point By David Suiter Writer and artist Dan Jurgens tells a story of his time travelling hero Booster Gold in Time Masters: Vanishing Point. Booster Gold recently hit the big time in an episode of Smallville on the WB Network. The episode

picked up on many of the recent comic book developments with the character. *Time Masters: Vanishing Point* continues the story of Booster Gold and his partner Rip Hunter from the Booster Gold series produced by DC Comics. Booster and Rip are time cops making sure that time progresses as it always has. There are villains who wish to go back in time and alter events to suit them. Booster and Rip must prevent this. Jurgens uses some nice story telling techniques to go in depth on the characters of Booster Gold and Rip Hunter. The interactions the two heroes have throughout the story with Superman and Green Lantern help to tell who these characters are. Booster is defined by his aloofness. He must present the act of a media crazed, bumbling fool to continue as the greatest hero the world has never known. If his enemies knew what he was really up to they would stop at nothing to finish him off. This is not always easy for Booster to take and Jurgens conveys this throughout the story. Rip Hunter on the other hand is more of a mystery. Jurgens frames every story in this collection with a look at a young Rip as he grows and learns the dangers that come as a protector of the time stream. This method that Jurgens uses allows the reader to get more from the story not only of its central character but also of how the events of his youth are shaping his present. Jurgens does insert some items into the story that occurred in other stories not printed here and new readers may find that off putting, but not enough to detract from the overall story. Like most serialized fiction the story began somewhere else and continues in another book. The art that Jurgens provides with his inker Norm Rapamund is outstanding. A throwback to the more classic art of the 1990s, the pencil work is clean and each character is distinguishable from the next. The verdict: There is some great character development in this book. Jurgens makes the efforts of Booster Gold and Rip Hunter seem real and important in a fantastic way. The story has a beginning, a middle and an end but leaves enough plots dangling to entice the reader to come back for more. Fans of comics from all ages will enjoy this book. 0 of 0 people found the following review helpful. interesting story By xArkSlade-J.S.x The story is interesting and the graphics are cool. I like when the show past, present, and future in the story. My favorite part is when all the heroes are working together and they show booster gold from the future and his family. I hope DC Comics makes more TIME MASTERS stories these year and show justice league from the past and the new 52 working together to save the time and future. 0 of 0 people found the following review helpful. high energy time travel story By woodrow locksley *Time Masters Vanishing Point* is a high energy time travel story on how the time master of the Dc universe Rip Hunter and his top assistant ,Booster Gold, take the Green Lantern and Superman with them to search the time stream for Batman and to prevent him from destroying earth .Darkseid had sent Batman into time bathed in omega energy turning him into a living bomb set to detonate once he reaches the present back in his own time in the early 21st century. The four have to deal with distortions in the time stream which bring them into conflict with a sorcerer and sorceress wishing to use the time stream to dominate their own time period as well dealing with the time traveling villain the Black Beetle who wishes to use the time stream for his criminal purposes. The story is high energy with great art by Jurgens. Its only flaw is that it should have been more closely connected with the story telling the Batman half of Batmans travel through time. The Return of Bruce Wayne is the better of the two books and should be read with this one but *Time Masters* is good enough on its own to be read by itself

With Batman lost in time, DC's top heroes must search throughout history to find him - and keep time from tearing itself apart! *Vanishing Point* - the place where time itself comes to an end - is tearing itself apart, and one of the keys to keeping reality from being torn asunder is finding exactly where Bruce Wayne is in the time stream! Rip Hunter puts together a high-powered band of Time Masters to travel throughout history in search of the World's Greatest Detective, but can even the combined might and skill of Superman, Green Lantern and Booster Gold help the Time Master pinpoint where Batman went at the end of FINAL CRISIS? Collects TIME MASTERS: VANISHING POINT #1-6.
