Mariko Tamaki : Tomb Raider Volume 1: Spore before purchasing it in order to gage whether or not it would be worth my time, and all praised Tomb Raider Volume 1: Spore:

1 of 1 people found the following review helpful. An interesting story but leaves some unanswered questionsBy TartarusThis is the first volume of comics continuing the Tomb Raider stories from after the events of Rise of the Tomb Raider game (and presumably leading up to the story of a third, as yet unnamed, future game in the series).The plot is an interesting one, involving a type of mushroom from China rumoured to grant immortality, and coveted by a

secret organisation called the Knighthood of the Dark Spore. Lara Croft has become more confident and well skilled by this point, which makes sense considering the experience she would have gained by this point. She also learns a new skill early in this story that becomes useful later on. There are a couple of small criticisms I have though. Firstly, we learn very little about the lore of the mushrooms of immortality. We hear briefly of court magicians of the Han Dynasty claiming to know of the mushrooms' secret locations, but little else. Secondly, the Knighthood of the Dark Spore all suffer from some unnamed affliction that gives them an almost corpse-like appearance. This is a potentially interesting plot point, but as to what this affliction is or why they have it, the story doesn't say. I'm guessing they were hoping the mushrooms would cure them or something but this is just a guess as the story reveals very little about the nature of its antagonists and hardly anything about their motives beyond that they want the mushrooms and are willing to kill for them. So overall, a good story, but it could have revealed more about the nature of what was being sought and of those seeking it. 1 of 1 people found the following review helpful. An awesome Tomb Raider comics!!! By Kaushal Pandya Tomb Raider: Spore takes place after the events of the console game, Rise of the Tomb Raider. The artwork is beautiful, and this book is a must have for all Tomb Raider fans out there. This book collects all the comics from Issues 1 to 6. The remaining issues (Issues 7 to 12) will be covered in the upcoming book, Tomb Raider Volume 2. I hope this was helpful to you. 0 of 0 people found the following review helpful. excellent By CSRe

After Rise of the Tomb Raider Lara Croft's adventure continues in an all-new comic Dark Horse series by Eisner Award winning writer Mariko Tamaki! Lara Croft is pursuing a secret lost truth that leads her to a mushroom said to grant immortality and an organization called The Knights of the Spore who would do anything to keep the mushroom's power for themselves. Lara's ingenuity and tenacity for survival will be put to the ultimate test as her search leads her closer and closer to the truth. Collecting the entire first arc of the Tomb Raider comic series, issues #1-#6!

About the Author Mariko Tamaki is a Canadian artist and writer. Best known for her 2008 graphic novel *Skim*, she has also published several works of both traditional written fiction and non-fiction. She was born in Toronto, Ontario and studied English literature at McGill University, graduating in 1994. *Skim* won an Ignatz Award, a Joe Shuster Award and a Doug Wright Award in 2009, and was a nominee for the "Children's literature" category at the 2008 Governor General's Awards. Tamaki was also awarded an Honour of Distinction by the Dayne Ogilvie Prize, a literary award for lesbian, gay, bisexual or transgender writers in Canada, in 2012. On August 18, 2014, *This One Summer*, which was written by Mariko Tamaki and illustrated by Jillian Tamaki was nominated for a Ignatz Award. *This One Summer* won the 2015 Michael L. Printz Award and the Caldecott Honor from the American Library Association.
