**Warren Ellis, Chris Claremont, Paul Jenkins, and more! : Top Cow/Marvel: The Crossover Collection Vol. 1**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Top Cow/Marvel: The Crossover Collection Vol. 1:

6 of 6 people found the following review helpful. Great Crossover CollectionBy MorganThis book is a great collection of Marvel/Top Cow crossovers that saves you the trouble of hunting down each separate issue. Included is the Devil's Reign crossover, an enormous multi-character story arc that ran for six or seven issues and made me fall in love with

the characters Cyblade and Ballistic. The artwork is beautifully reproduced. The only problem with this paperback is the binding is weak, and the pages start falling out as soon as you start reading it. If this doesn't bother you too much, it's a worthwhile purchase. Just keep in mind that you'll be fumbling with loose pages quite often. 0 of 1 people found the following review helpful. Just okay

By A. McLaughlin While I enjoy many of the Top Cow and Marvel characters included in this volume, it's a pretty generic crossover collection. I didn't have the interest to read all of the stories in it, but the art was cool. The Witchblade/Wolverine story was my favorite, though admittedly basic in nature. If you wish the Witchblade and Elektra were real women, you'll get a little bit of PG-fanservice that might make it worth your while, but in retrospect, I would have passed on this collection. 0 of 1 people found the following review helpful. Horrible

By Chongo Don't be fooled by the great cover. This was one of, if not, THE worst crossover tpb's I've ever purchased. I'd have to say that even a lot of the interior art isn't so great so it almost comes off like a fanzine this wouldn't be such a bad thing if the stories were interesting. And the fact that they're not doesn't help any.

A decade's worth of great Marvel Comics/Top Cow crossovers are finally collected in one superstar package! Mephisto moves over from the Marvel Universe to focus his attention on Top Cow in the epic "Devil's Reign" crossover, while Wolverine meets Witchblade and The Hulk takes on The Darkness in separate titanic tales! It's 11 issues worth of worlds colliding!
