**Shane McCarthy : Transformers: Drift** before purchasing it in order to gage whether or not it would be worth my time, and all praised Transformers: Drift:

It doesn't have one G1 character in it except Sunstreaker. Seeing other imagined Cybertronians is great. Recommended.0 of 0 people found the following review helpful. but kind of generic. By Mika Nothing too amazing kind of a standard comic book story, but still pretty nice to see IDW's origin story for Drift. It ends on a nice hook to make you want to read the next issue.

What was it that caused one of the Decepticons most ruthless soldiers to turn his back on them? And what ancient secret lies hidden deep within an alien planet? All this and more as the origin of the newest Autobot, Drift, is finally revealed!
