better than a lot of what the Big 2 are publishing. This just goes to showcase how great MTMTE is. Roberts Milne are just on one of those special "runs". It's one that people may not fully appreciate (or appreciate at all) until years down the road. As far as this specific hardcover collection, it's absolutely excellent. IDW does not mess around or skimp on their deluxe hardcover editions. This is a beautifully crafted ruggedly designed book that will not only look great when displayed, but will essentially last a lifetime if decently cared for. 0 of 0 people found the following review helpful. we need more hardcovers in a quarterly fashion...By Matthew Casheli HATE revamps. hate 'em. but idw's HARDCOVER (that collects everything) TRANSFORMERS: IDW COLLECTION is my personal tf canon. i never pick revamps over originals AND i have read all tf from uk and STILL these books are so well developed that they evolve the tf mythology. it still cherry picks the best stuff from the classic comics and the cartoon, etc. even BEAST WARS lurk in the shadows. and the continuity pulls no punches SPOILER ALERT..... volume 5 phase 1 the war between the cybertronians destroys Earth, killing over a billion humans. and while other comics would just follow the tf's off-planet, we see the manner in which humans deal with the aftermath. heck, that's the spotlight for the next few volumes. definitely worth the cash. definitely worth a faster publication schedule. maybe, 4 volumes a year to get caught up while sales are good. btw:tf uk is awesome, too. 0 of 0 people found the following review helpful.
