Thus begins a convoluted tale, an epic quest (yes, I did use those words intentionally!) and the snark and snappy shots abound. In this series, you will run a gamut of emotions, but every book will leave you tasted-up for the next installment! 0 of 0 people found the following review helpful. Five Stars By LadyMopar These just keep getting better and better. This one tugged a little bit at my feels too. Love it! 0 of 0

The journey continues as the crew of the Lost Light confronts a band of rogue Decepticons with terrible consequences! Plus, a visit to the planet Hedonia and a chance to put recent events behind them. But all the while, locked in a secret cell underneath the Lost Light, hidden from the crew, a Decepticon psychopath is talking...without opening his mouth. And, Rodimus and his crew are confronted by the enemy within and not everyone will survive the encounter.
