James Roberts : Transformers: More Than Meets The Eye Volume 9 before purchasing it in order to gage whether or not it would be worth my time, and all praised Transformers: More Than Meets The Eye Volume 9:

Greenagel II With the end of the original arc and Dark Cybertron, this series has been dominated by Megatron (it's not a criticism...he is an amazingly interesting character). While volumes 6 and 7 of this series will brilliant, volume 8 was a step down (still good) with a series of one-off stories. Here, Roberts is clearly building towards some new arc. There

is a major story that runs through this tale, and it is fairly good. Skids, Tailpipe and Cyclonus return to prominent roles after moving to the background after Megatron's arrival. The last few pages of this trade are fantastic, and I am so looking forward to the eventual Megatron and DJD showdown that must happen. The dialogue is wonderful - Roberts jams so much in and it helps develop the characters, contribute to the plot and entertain. He is a master at work. The art is well done and adds to the story. 0 of 0 people found the following review helpful. Better than it has any right to be By Wolfsigma I don't know how it is... but there is more humanity and emotion in comics about giant sentient toy commercials than there is in 95 percent of other comics... any... other media of all types. These comics are beyond stellar... they are transcendent of the media. Funny... thoughtfully... exciting... they have it all. Without a doubt some of the smartest books I have ever read. 0 of 0 people found the following review helpful. "It's pronounced "SCAVENGERS!!! " More Than Meets ...By Rob" It's pronounced "SCAVENGERS!!!" More Than Meets the Eye has worked on a scale of epic story, filler, and epic conclusion for its seasonal tales. This volume takes us back to a ragtag group of unparalleled losers with so much to offer. From the first page recap of adventures left unseen to the repercussions yet to happen with that other group of adventuring misfits.

OPTIMUS PRIME struggles to find his place on CYBERTRON where half the population hates him and the other half worships him. Meanwhile, on Earth, GALVATRON doesn't care what anybody thinks. Collects issues #4549.
