**John Barber : Transformers: Robots In Disguise Volume 3** before purchasing it in order to gage whether or not it would be worth my time, and all praised Transformers: Robots In Disguise Volume 3:

0 of 0 people found the following review helpful. the cop is the most interesting characterBy Frank L. Greenagel  
IIThis is a very strong volume in a truly excellent series. The art here is by three different artists - each style vastly differs from the other, but it works because of different settings and times.Both 2011- series by IDW are excellent. RID covers the struggles of governments in a post-civil war society. The characters are interesting and well developed.Bumblee is noble but a tad clueless, Starscream is a self-motivated schemer who lacks charisma and

Metalhawk is just annoying. The most interesting character in this volume is...gasp...Prowl. Of course, the volume ends with a famous Transformer showing up at the end. 0 of 0 people found the following review helpful. Four Stars By K. Juradoshe like it 0 of 0 people found the following review helpful. RID takes a different direction By brian s I personally unique, interesting approached when it comes to the Transformer property. They can only battle on and for Earth so many times. This title allows different characters to be a key part of the story. Yet, it gets a little far fetched and strange at times..but these are Robots in Disguise after all. Buy this TPB but try to get it on sale or slightly used. follow me on instagram rolling\_steel

Orion Pax the former Optimus Prime follows a rogue group of Decepticons into one of the greatest mysteries ever to face the Autobots! The mysterious Metrotitan arrives on Cybertron smashing into the ruins of the legendary Crystal City! And, tensions ratchet up between the Autobots and Decepticons as violence breaks out in the heart of the city and Prowl looks for someone to blame. Is Dirge a convenient target or the key to what comes next?

About the Author John Barber is a former Marvel and IDW Publishing editor now focused on writing comics. Credits include: Optimus Prime, Doctor Strange/Punisher, Ultimate Spider-Man Infinite Comics, Revolutionaries, Back to the Future, and Action Man comics!
