John Barber : Transformers: Robots In Disguise Volume 4 before purchasing it in order to gage whether or not it would be worth my time, and all praised Transformers: Robots In Disguise Volume 4:

1 of 1 people found the following review helpful. Worthwhile continuation..By GarvinThis issue wraps up quite a lot of plotlines for robots in disguise and of course sets some up for teh future. I like how they tie it in to left over questions after the debacle called chaos. The return of megatron and the manipulations of prowl are something i liked, what didnt work for me are bumblebee's face being crashed and then seeming not so damaged at all.Starscreams

accent is handled reasonably, but most of the plot feels miniaturised. IDW 's transformers universe just keeps shrinking instead of expanding and the whole: the war is over routine just doesn't make sense. It didn't make sense when all hail Megatron was concluded as a complete defeat of the Decepticons. Not after millions of years of war. And when Megatron returned and was defeated again, was that the end of the war? Nope.. it just starts over this issue. (And I am happy it did) But is it over now? They should let go of the ridiculous notion that after winning a battle the war is over its not. nor should it. but i am getting of topic. this paperback is a very nice read. Lovely closure. The art is allright overall, except for Megatron's face/facial expressions in general. Also it seems transformer artists just can't capture arcee for some reason. but putting that aside. I very much enjoyed these issues. hence a recommendation. 0 of 0 people found the following review helpful. Five Stars By Customer Great gift to my twin who loves Transformers and the comic series. 0 of 0 people found the following review helpful. Five Stars By Cornelia Trombley Interesting way things are going.

THE RETURN! He's back and Cybertron will never be the same! Everything Bumblebee and his Autobots have built teeters on the edge of collapse and Starscream has to make the choice his whole life has been leading to. And meet the new Prowl deadlier than ever, colder than any other Autobot, and ready to end the Decepticon threat! This volume collects issues #12-16 of the regular ongoing series.

About the Author John Barber is a former Marvel and IDW Publishing editor now focused on writing comics. Credits include: Optimus Prime, Doctor Strange/Punisher, Ultimate Spider-Man Infinite Comics, Revolutionaries, Back to the Future, and Action Man comics!
