John Barber : Transformers: Robots In Disguise Volume 5 before purchasing it in order to gage whether or not it would be worth my time, and all praised Transformers: Robots In Disguise Volume 5:

1 of 1 people found the following review helpful. the highlights are Soundwave and Shockwave By Frank L. Greenagel
I This excellent volume details the first few days of Starscreams' reign and how command isn't what he (or others) thought it would be. There is a side story of Optimus Prime that has been flowing through these volumes as well...it is not resolved here. Soundwave and Shockwave step to the fore here, and Barber's work with them is among his best

throughout the first five volumes of the series. Barber tells the tale of the Decepticons, the revolution, and slowly unveils Shockwave's master plan in drips and drabs by going back in forth in time. The recollections from the past are told along with different art, which adds so much to the story. As Barber (here) and Roberts (MTMTE) tell the story of the Decepticon revolution through flashbacks, it's hard not to sympathize with Megatron of Tarn's rebellion against the corrupt senate. Masterfully done. 0 of 0 people found the following review helpful. In The Aftermath of War-By Magi-Jinn In the Aftermath of the War (and the destruction of PROWL-ASTATOR) this collection is A bit of A lull. It's Not bad; BUT ITS DEFINITLY NO WAY AS GOOD AS THE AWESOME KING STARSCREAM Cover. 0 of 0 people found the following review helpful. Good prelude to Dark Cybertron By Brian M Bojarski As the First Season comes to a close, the various subplots reach the penultimate stage as the road to Dark Cybertron continues.

The fate of Cybertron is sealed but what is the Decepticon scientist called Shockwave planning? In the wastelands of Cybertron, he makes his move and Soundwave and the Decepticons step up to stop him, but in the end they are faced with the ultimate choice: will the Decepticons stand with Shockwave or will they join the Autobots?

About the Author John Barber is a former Marvel and IDW Publishing editor now focused on writing comics. Credits include: Optimus Prime, Doctor Strange/Punisher, Ultimate Spider-Man Infinite Comics, Revolutionaries, Back to the Future, and Action Man comics!
