**Eric Holmes, Shane McCarthy, Simon Furman, Stuart Moore, George Strayton, Nick Roche : Transformers: The IDW Collection Compendium Volume 1** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Transformers: The IDW Collection Compendium Volume 1:

I wanted to get the earlier runs of Transformers, from when IDW began to do them, and though there are trades of these out there, I wanted to start with a fresh look to the

books. This omnibus was perfect. It is a soft cover, and is the exact LxW dimensions of a modern comic, so there are no unnecessary borders added, which gives you that feel of reading each issue as it originally came out. There is a lot in this book, and if you are a current reader of the Transformers series or if you are interested in getting in on the "First Season" then this is the book to get. A little pricey, but if you break down what each book cost, or if you look at it by page count, you are getting a great deal. My only gripe is the cover art. I didn't think it fit the tone of the books inside and I think it gives the wrong impression that you might be gutting some kid's book of comics. However, we all know that a kid is not grabbing an \$89 comic without someone noting or them knowing a little bit about what it is they are about to get into. I recommend this book highly. 0 of 0 people found the following review helpful. I have read it twice already and it is fantastic! the layout, the story, the art, the quality of the binding is awesome! IDW makes GREAT Transformer books!

The Transformers universe is vast and full of ongoing conflict between the Autobots and Decepticons. A war that stretches across the galaxy and throughout time. These tales from IDW's timeline of events re-present the saga as it unfolded. From Cybertron to Earth, this is the story of The Transformers. Included are The Transformers: The IDW Collection Volumes 1 and 2 containing Megatron Origin; Spotlights: Blurr, Cliffjumper, Shockwave, Nightbeat, Hotrod, Soundwave, Sixshot, Ramjet, Ultra Magnus, Kup, Mirage, and Optimus Prime; and Infiltration, Stormbringer, and Escalation.

About the Author Shane McCarthy presently resides in Perth, Western Australia, officially one of the top ten most furthest away from everywhere places on the planet. Shane is a freelance writer whose work has been published internationally by DC Comics, Marvel Comics, and IDW to name a few. Over the years he has written Batman: Legends of the Dark Knight, Detective Comics (starring Batman), Dark X-Men, Daredevil, Star Wars, and Transformers: All Hail Megatron. When not delving into the topsy turvy world of comics, Shane (also a professional dancer) can be found teaching and dancing the "Lindy Hop" all around the world. Nick Roche is an Irish comic book artist and writer who hails from Dublin. He's best known for his extensive credits on IDW's Transformers titles, the most prominent of which are Transformers: Sins of the Wreckers, Transformers: Last Stand of the Wreckers, and numerous covers for Transformers: More Than Meets the Eye, to which he also contributed stories and interior art. Nick has also worked on IDW's Doctor Who series and the creator-owned, all-ages horror comedy Monster Motors, with Minions screenwriter Brian Lynch. Beyond IDW, he's worked on New Warriors for Marvel and serves as the album artist and music video designer for rock band The Darkness.
