**Simon Furman, Eric Holmes : Transformers: The IDW Collection Volume 1** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Transformers: The IDW Collection Volume 1:

1 of 1 people found the following review helpful. Great Stories By Customer I was a little bit lost in the action. I had not read a Transformers comic in many years. I grew up with the original Marvel series. I had to remind myself that these are all new stories and begin with a clean slate. This was hard to do. However, I very much enjoyed reading this collection. I recommend this series to all TF fans. I plan to eventually purchase the entire series. Well done! 0 of 0

people found the following review helpful. Five StarsBy CustomerGreat addition to my collection!1 of 1 people found the following review helpful. Transformers IDW collection 1By J. ScottThis has got me back into transformers comics. Great hardcover, superb paper quality and a small ribbon to keep place. The comics are set up the way IDW thinks you should read them. The order is Megatron Origin #1-4, spotlights on Blurr, Cliffjumper, Shockwave, Nightbeat, Hot rod, Soundwave and Infiltratin #1-6 I had no problem with the order IDW set them up in. This is also the my first time reading IDW's Transformers comics and I have to say I'm very happy. There is no sketches, alternate cover etc. Just the comics. Can't wait for vol 2.

For the first time ever, the entire IDW Transformers Universe is presented in hardcover, in chronological order! Featuring series cover design by EJ Su, this run is sure to redefine your experience with the Robots in Disguise. Volume 1 co Megatron Origin #14, Spotlight: Blurr, Spotlight: Cliffjumper, Spotlight: Shockwave, Spotlight: Nightbeat, Spotlight: Hotrod, and Infiltration #06.
