The book is quite large at 392 pages, and is made from high quality paper. There is a string page keeper built in so you don't lose your place in the collection. The collection is just the

stories in the description, and has NO extras. The art varies throughout the book. Stormbringer has some of the best Transformers art you will ever see, while Escalation leaves much to be desired. You will enjoy the spotlight series included, as they all combine to tell an overall story with each containing bits and pieces. My favorite spotlight story is Ultra Magnus in the collection. You see him as an enforcer of the law and he is chasing down Scorponok. Great artwork in that story. This volume includes the following: STORMBRINGER: Written by Simon Furman and art by Don Figueroa ESCALATION: Written by Simon Furman, with art by E.J. Su SIXSHOT: Written by Simon Furman with art by Rob Ruffalo RAMJET: Written by Stuart Moore with art by Robby Musso ULTRA MAGNUS: Written by Simon Furman with art by Robby Musso KUP: Written and drawn by Nick Roche MIRAGE: Written by George Strayton, with art by Guido Guidi OPTIMUS PRIME: Written by Simon Furman with art by Don Figueroa.

A great introduction By Rebecca I will simply put up here a copy of an earlier review on an older volume of this collection: "This collection really put me in touch with the modern era Transformers universe, and I would never thank IDW enough for making it so easy to keep up with all the wonderful stories they come up with." I found the first volume purely by accident while on trip, and this sentence above is just what I thought -and still think- when I did. It was a great introduction into this continuity and a wonderful way to keep in touch without getting confused by all the sidelines stories.

I got this one first because volume 1 was sold out. But it just got restocked so I ordered it. Should be here tomorrow can't wait.

The re-presentation of IDW's Transformers Universe continues in volume 2! This volume includes the Transformer series Stormbringer and Escalation, as well as Spotlights: Sixshot, Ultra Magnus, Kup, and Soundwave.
