Shane McCarthy, Simon Furman, Mike Costa, Andy Schmidt, Nick Roche : Transformers: The IDW Collection Volume 5 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Transformers: The IDW Collection Volume 5:

Dark Of The Moon look like kindergarten in comparison. The Decepticons here are portrayed D-bags. And rightfully so. The Constructicons in this story is funny. "We come in Peace!" one of the Constructicon says. Then they laugh and start shooting people. Of course I'm paraphrasing in this review. This also shows what happens if the Autobots are battered but not out yet. And Frenzy? Lets just say he went on a killing Frenzy in this story arc. Lots of people die in this story arc. I also have to point out Devastator is a bit off in this story arc. He's missing his chest piece in this story. Which I have to say is funny. At least we can agree Devastator in this story wasn't taken out by a rail gun. The rest of the story arc is the CODA. The story is great. The artwork is great as well. Go give this a buy If you already have Transformers the IDW Collection Vol 1 to 4. I have to point out that the copy of Transformers the IDW Collection Vol 5 arrived with some minor damages in the cover. But I'll give and the shipping company the benefit of the doubt. I'll let this one slide for now. 0 of 0 people found the following review helpful. I bought it for my son By Erin Guyett I bought this for my 19 year old son for Easter, and he loved it. He has read the first four, and the fifth was the best so far. He can't wait to get the sixth book. 1 of 1 people found the following review helpful. IDW delivers superior quality By Shreddemon IDW's collection series are nothing short of amazing. The comics are great and this hard cover compilation is just brilliantly put together. The quality of the book's hardcover and binding is nothing short of perfection. The All Hail Megatron series rocks. Lots of depiction action. Buying every issue can get costly so I collect these instead. I own every book in this series to date.

The re-presentation of IDW's Transformers Universe continues with Volume 5, collecting the entirety of the maxi-series All Hail Megatron issues #112 and Coda #14.
